# Balancing Equations

Find an addition problem and a subtraction problem that have the same answer. Place them on the scale and record the equations on the recording sheet.

Name: \_\_\_\_\_

**Equivalent Equations**

### Balancing Equations

Directions: Match an addition problem with a subtraction problem. Solve the problems and record 8 sets of equal equations.

$10 + 8 = 18$	$\square + \square = \square$
$20 - 2 = 18$	$\square - \square = \square$
$\square + \square = \square$	$\square + \square = \square$
$\square - \square = \square$	$\square - \square = \square$
$\square + \square = \square$	$\square + \square = \square$
$\square - \square = \square$	$\square - \square = \square$
$\square + \square = \square$	$\square + \square = \square$
$\square - \square = \square$	$\square - \square = \square$
