AREA & PERIMETER

AREA

Definition:
the space (square units) inside a shape

Formula:
Area = length x width OR Area = side x side
A = l x w A = s x s

Example:
4 x 8 = 32 sq. in.

PERIMETER

Definition:
the distance around the outside of a shape

Formula:
Perimeter = side + side + side + side
P = s + s + s + s

Example:
4 + 8 + 4 + 8 = 24 in.
