The Distributive Property

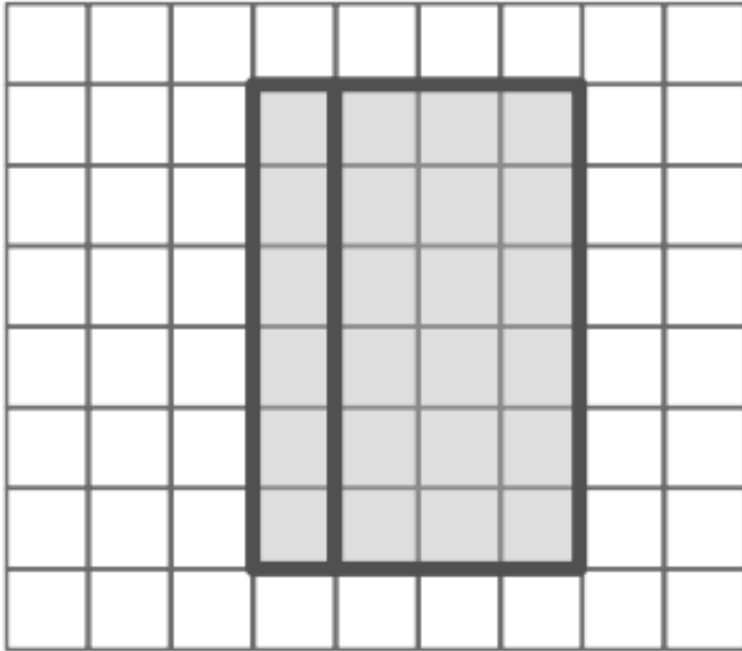

$$\underline{\quad} \times \underline{\quad}$$

$$= \underline{\quad} \times ( \underline{\quad} + \underline{\quad} )$$

$$= ( \underline{\quad} \times \underline{\quad} ) + ( \underline{\quad} \times \underline{\quad} )$$

$$= \underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad}$$

$$= \underline{\quad} \times (\underline{\quad} + \underline{\quad})$$

$$= (\underline{\quad} \times \underline{\quad}) + (\underline{\quad} \times \underline{\quad})$$

$$= \underline{\quad} + \underline{\quad} = \underline{\quad}$$
